Learning Resource Center

At Lincoln, we are dedicated to providing students with learning resources that enhance their educational journey and career readiness. Our learning resource system includes a wealth of online tools and facilities. Central to this system is our Learning Resource Center (“LRC”) that offers students access to a vast collection of online databases covering hundreds of subjects that are available 24/7. These databases house a variety of digital materials, including eBooks, scholarly journals, market reports, dissertations, working papers, streaming videos, and electronic journals. Both our online and campus-based LRC offer a focused setting to enhance the overall learning experience.

ADD the following policy to the ACADEMIC INFORMATION section on page 38:

Independent Study

In certain circumstances a student is unable to take a course at its scheduled time or a student might need a course to graduate that is not scheduled in the time remaining in his or her program. When this situation occurs, the school may authorize the student to take the course through independent study. In order to take a course through independent study, an approved plan must be signed by the applicable staff members at the school.

If the school grants the student permission to take the course through independent study, the student must agree in writing to the study plan including the syllabus that outlines the learning objectives, texts, course requirements, evaluation criteria, meeting dates, and examination dates for the course.

A student must meet the following conditions to take a course through independent study:

1. Successfully completed at least 50% of the credit hours required in the program;
2. Have an overall cumulative grade point average (CGPA) of at least 2.0;
3. Making satisfactory academic progress (SAP).

No more than 10% of a program offering is permitted to be delivered via independent study. Further, there may be some courses that do not lend themselves to independent studies. The school reserves the right to deny any student the ability to take a course through independent study.

ADD the following policy to the ADMISSIONS section on page 20:

Attendance

The technical nature of the training and graduate employability goals of the programs offered requires that students attend classes on a regular basis. Consequently, the following attendance policy will be enforced:

- Regardless of the percentage of a course or courses missed, students, full time or part time, will be considered to have withdrawn from school on the fourteenth consecutive calendar day of absence while school is in session (with the exception of published holidays and breaks).

For the Practical Nursing Program, an excess of 10% absenteeism will result in failing grade. See Practical Nursing Attendance Policy.

- Students participating in an Externship will also be considered to be withdrawn from school on fourteenth consecutive calendar day of absence (with the exception of published holidays and breaks). Students are required to complete all the required hours of the training in order to be eligible for graduation. If students are absent from regularly scheduled hours, these hours must be made up in order to be eligible for graduation.

Approved field trips and employment interviews are considered part of training. So those activities, in addition, to absences due to new students starting late (established per school policy) are not counted as absences for attendance purposes.

Students receiving funds from any state or federal agency may be subject to the additional attendance requirements of that specific agency.

A Pending Course Schedule (PCS) student status is a temporary period of non-attendance not to exceed a maximum of 60 calendar days. The status is intended to support student progression and is applied when a student has a course that is not available due to, but not limited to, interruption in their enrollment because of a course failure, a shift change, a leave of absence, or failure to meet graduation requirement. The PCS status is not included in the 150% maximum timeframe calculation.

REVISE the following policy on page 33:

Make-Up

For all programs with the exception of Practical nursing, upon return to school following an absence, students are required to turn in any work that was due while they were absent in order to receive up to the original 100% credit. A reduction in credit for make-up work will be applied to all late submissions based on the following criteria:

- Up to 90% credit for all work turned in up to one week late from the date of your return.
- Up to 80% credit for all work turned in up to two weeks late from the date of your return.
- Any work turned in after two weeks late will receive a grade of 0%.

Availability for make-up on high stakes assessments (e. g. mid-terms and final exams) may be limited, and the date and time of make up on high stakes assessments must be agreed upon by faculty. Regardless of the timeframes referenced above, all work must be completed in a timely manner in order to process final grades, grade appeals and/or to resolve incomplete grades.

Any exceptions due to extenuating circumstances are managed at the discretion of the Director of Education and/or the Campus President. Documentation may be required to justify extenuating circumstances. There is no fee for the review or processing of approved make-up work.

For Practical Nursing students, make-up time for class / lab / clinical / may be scheduled on a limited basis with an approved documented absence on record. Make-up time must be completed on the dates and in the timeframes determined by the Director of Nursing. See the Director of Nursing for campus limitations.

In the case of school closure due to inclement weather or other natural disaster, make-up sessions will be scheduled to present and/or review material not incorporated into the remaining scheduled days. The campus will attempt to schedule make-up classes at times that fit within the students' schedule.
